The Concentrated Power of Mineral Matrix Cx: There are six nutrient groups: water, vitamins, proteins, fats, carbohydrates & **minerals**. Without a healthy balance and form of all of these, you will eventually become chronically ill. **We need macro minerals and trace minerals for youthful wellbeing.** We typically get enough macro minerals from diet. Yet **most people are statistically lacking in trace minerals** because of soil depletion, diet, blocked colon, receptor site competition, drugs, malabsorption and bioavailability. For instance, you can't absorb the iron in rust or nails, but you can if each atom is ionized or cofactored. Concentrated **Mineral Matrix Cx** contains over 72 naturally cofactored (ionically charged) minerals.

Besides mineral deficiency, **the most common nutritional deficiency is dehydration.** Because in part, most water lacks enough minerals. This is why you need cofactored **Mineral Matrix Cx** to help replace critical minerals and **to hydrate your body to the deepest cellular level.** Signs of mineral depletion/dehydration include, **insomnia**, fatigue, irritability, **anxiety**, depression, **cramps**, high blood pressure, **headaches** & migraines, joint & **back pain**, cravings, **heartburn**, constipation, and eventually, **auto-immune issues** and other chronic diseases.

This is because we are 96% carbon, hydrogen, oxygen and nitrogen and 4% minerals. Too much or too little of any of these results in chronic illness and premature death.
